## [Github/Portfolio](#)

## SUMMARY

Motivated and adaptable professional with a strong foundation in data analysis, automation, and web development. Experienced in SQL-based analytics, Python programming, and building full-stack projects with Django. Demonstrated ability to learn quickly, deliver practical projects, and integrate AI-driven tools to optimize workflows. Eager to apply technical skills, creativity, and problem-solving to drive innovation.

## KEY SKILLS

- **Technical:** Python, SQL, Django, Pandas, NumPy, AI Tools, HTML/CSS
- **Data & Analytics:** ETL workflows, dashboards, automation, data visualization
- **Soft Skills:** Problem-solving, adaptability, learning agility, collaboration

## PROJECTS

Spotify Artist Analysis (Jessie Reyes) – *Python, Spotify API, Pandas, Matplotlib*

- Collected and analyzed streaming and popularity data using Spotify API.
- Built visualizations to track trends and performance across albums.
- Demonstrated ability to work with APIs, data wrangling, and visualization.

## WORK EXPERIENCE

### Cold Stone Creamery

*June 2024 - May 2025*

- Prepared daily sales reports and contributed insights to support decision-making.
- Ensured customer areas and carts were well-maintained, clean, and ready for service.
- Represented the brand at events, engaging customers and promoting products.
- Conducted a time-series analysis to compare year-over-year daily sales, highlighting trends and opportunities for growth.

### Semiconductor Technologies Limited

*Feb 2021 - Oct 2023*

- Developed high-quality software solutions using Python's framework Django, integrating REST APIs and PostgreSQL databases.
- Collaborated with cross-functional teams to design and implement software, ensuring alignment with business requirements.
- Trained end-users and created detailed documentation for software implementations.
- Participated in stand-ups, sprint planning, and tech talks to ensure smooth project execution.
- Provided technical support and troubleshooting for software issues, ensuring minimal downtime.

## EDUCATION

### IBM Professional Certificate

*(Feb 2025 -In progress)*

*Data Science*

### Moringa School Boot-camp

*(June - December 2019)*

*Software Engineering*

### Jomo Kenyatta University of Agriculture and Technology

*(March 2017 - May 2019)*

*Diploma in Information Technology*
